

SPECIAL "P.O.V." FREIGHT HANDLING SERVICE

(FOR SMALL PASSENGER VEHICLES ONLY)

To facilitate exhibitors with smaller exhibit material shipments, Blaine Convention Services is making available a Privately-Owned Freight Handling service which will move freight from the loading dock to your exhibit space during move-in and back to the loading dock at move-out. This "POV" service is limited to 400 lbs. of freight per pallet or less and has material size and vehicle limitations specified below. Each qualifying exhibitor will be allowed **two pallet loads per 10x10 booth space purchased**. The charge for this service is **\$125.00 round trip**. If you anticipate your shipment to be in excess of these limitations, please refer to the material handling rate schedule enclosed in this exhibitor manual.

Materials must fit on the 3-1/2' x 4' pallet.

Vehicles That Qualify Are:

CARS

MINI VANS

SMALL TRUCKS

SUV'S

Vehicles That Are Larger Than 1/2-Ton capacity or Commercial Carriers Do Not Qualify

Freight that is too large or heavy for this service will be moved by Blaine Convention Services at the published material handling rates. **Vehicles over 1/2-ton (rental trucks, trailers or bobtails) will not be unloaded under this cartload service.**

The vehicle must be unloaded at the designated dock of the exhibit hall. There must be two people with the vehicle being unloaded: one person to go with the materials to the exhibit space and one person to remove the vehicle from the receiving dock to a parking location.

To expedite this "POV" service, it is strongly recommended that you pre-order this service prior to arriving to the showsite. To receive this service at showsite, please go to the Blaine Convention Services service desk in the exhibit hall prior to moving the vehicle to the receiving dock. Preferential service will be given to all pre-orders.

By signing below, you are requesting Cartload Service and thereby agreeing to the terms stated in the "Material Handling Terms and Conditions" and to the policies stated above.
